

Move It Trip – London’s Excel Arena

Friday 8 March 2019

Every year we take dance students to London to the biggest dance event in the world allowing them to experience professional workshops in various different styles of dance in the industry.

The impact the trip has on our students is that they experience dance at a professional level and explore how dance is so diverse. They get to go around the big dance schools, colleges and universities to look further into future career paths and options as well as see them showcase their work on the main stage alongside some famous faces in the industry of dance and performing arts.
