

SKEGNESS ACADEMY

Welcome to Science

Meet the Team

Head of Faculty: Mr Spowage

Mr Treadwell

Mrs Vernon

Mr Freeman

Miss Parker

Mr Shaw

Mr Kemshall

Senior Science technician: Mr Fieldman

Science technician: Mr Price

What will you learn in Y7?

In Year 7 students will explore science in the world around them through the topics of biology, chemistry and physics. Students will study the following topics; *organisms, ecosystems, genes, matter, reactions, Earth, forces, electricity, energy and waves.*

Students will be encouraged to recognise the power of rational explanation and develop a sense of excitement and curiosity about natural phenomena. Students will develop an understanding of how science can be used to explain what is occurring by investigating, predicting how things will behave, analysing causes and evaluating implications of science, today and for the future.
