Learning mentor

What will you learn in Y7?

In Year 7, students will explore a variety of texts and genres in English. Students will study the following topics: modern prose, cultural identity poetry, Oliver Twist 19th century extracts, Shakespeare's Midsummer Night's Dream, power of language through non-fiction texts and Our Day Out drama play. Students will be encouraged to recognise the power of language and expression, which will help develop a sense of excitement and curiosity. Students will develop an understanding of how English can be used to express themselves through reading, writing, speaking and listening. They will learn a range of creative writing skills to enable them to interest the reader alongside analysing the language used by other writers. Pupils will also participate in drama activities, as well as developing their own presentational skills.
