Every Child: Free Tickets
to Science Live on Stage.

Hello,

We know every child is creative but not every child has opportunity. Let's change that!

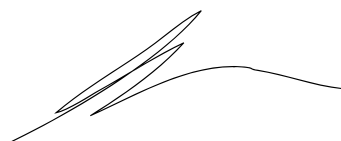

Earlier this year I couldn't have been prouder to announce Every Child: our new donation scheme enabling children and young people to access free tickets to extraordinary creative and cultural experiences,

Following a successful launch of Every Child, we've secured generous donations from people in Lincolnshire. I'm delighted to invite your school to access a limited number of donated **FREE** at point of use **TICKETS** on a first come first served basis for our forthcoming show Science: Live on Stage on 30 November and 1 December.

Experience live experiments, sensational science, learning and fun. The first of its kind, we're proud to be able to animate the work of microbiologist at the University of Lincoln with the creative skills of theatrical experts Simon Sanchez and Oli Smith. Take a journey through time and space to take a deep dive into E-coli. This is a relevant and timely exploration of the power of germs in a post-pandemic world.

Email KaHunt@lincoln.ac.uk to arrange your free tickets and lets starting planning your alternative and highly education end of term treat at one of the top 20 Universities in the UK for Biomedical Sciences, and the top 30 in the UK for Biological Sciences, as reported by Complete University Guide.

Yours sincerely,

Ben Anderson
Creative and Executive Director
